FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

In the Matter of )

)  
Amendment of the Commission's  
Rules to Establish New Personal  
Communications Services )

GEN Docket No. 90-314  
ET Docket No. 92-100

To: The Commission

### Request to Extend Reply Comments Deadline

The Wireless Information Networks Forum ("WINForum") is an alliance of leading information technology companies developing unlicensed, user-provided voice and data personal communications services. On May 18, 1993, the Commission set deadlines for comments and reply comments on WINForum's Spectrum Etiquette and the Report and Recommendations from the Unlicensed PCS Ad Hoc Committee for 2 GHz Microwave Transition and Management ("UTAM"). Comments were due June 21, 1993, and reply comments presently are due on July 6, 1993.

A considerable number of comments have been filed on these proposals, most including substantive technical commentary. At a series of meetings commencing today, our members will evaluate the comments in an effort to develop a consensus on the important issues raised. Circulating the comments is part of this activity. Given the breadth of our membership and the time necessary to ensure meaningful analysis of the comments, it is unlikely that WINForum will be in a position by July 6, 1993 to file replies that give due consideration to the viewpoints of all interested parties. Accordingly, WINForum respectfully requests that the Commission exercise its authority pursuant to 47 C.F.R. Section 0.331 and extend the reply comment deadline to July 20, 1993.

Respectfully submitted,  
The Wireless Information Networks Forum Inc.
